

```
const Client = require('oc-client');
```

```
const client = new Client({  
  registries: ['https://registry.com/'],  
  components: ['header']  
});
```

```
client.renderComponent('header', (err, componentHTML) => {  
  console.log(componentHTML) // rendered html  
});
```

Server-side rendering

```
const Client = require('oc-client');

const client = new Client({
  registries: ['https://registry.com/'],
  components: ['header']
});

client.renderComponent('header', (err, componentHTML) => {
  console.log(componentHTML) // rendered html
});
```
